

VISIBLE PATIENT

PAEDIATRIC SURGERY

**1st online laboratory
for 3D modelling
of patient medical images**

FINE ANALYSIS OF PATIENT ANATOMY

highlighting anatomical variations

RESECTION SIMULATION WITH VOLUME

COMPUTATION for kidneys, lungs and liver

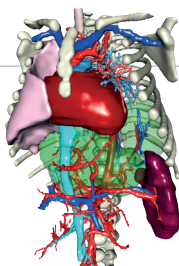

ACCURATE AND TRANSPARENT

VISUALIZATION of organs and pathologies

SIMPLIFIED COMMUNICATION

for family and patient

3D imaging and urology: Why 3D reconstruction will be mandatory before performing surgery

AUTHORS

Lachkar A-A, Soler L, Diana M,
Becmeur F, Marescaux J

Arch Esp Urol. 2019 Apr; 72(3):347-352.

AUTHORS

Is nephron-sparing surgery relevant for unilateral Wilms tumors?

Tricard T, Lacreuse I, Louis V, Schneider A,
Chaussy Y, Soler L, Moog R, Lang H,
Jacqmin D, Becmeur F

Archives de pédiatrie, 2017 Jul; 24(7): 650-658

PROCESS AND ORDER

1

Place your order
on our portal

2

Upload CT-scan or
MRI images of the
patient

3

Visible Patient
makes the 3D
model for you

4

You plan the
surgery with VP
Planning

VISIBLE PATIENT
As unique as you are.
